Profile

A Computer programming graduate with industry experience and a passion for full stack JavaScript development and UI/UX design. Staying on top of current technology trends bring creative and cutting edge ideas to all my projects.

Technology summary

Programming Languages | HTML, CSS, JavaScript, jQuery, C#, PHP, SQL, Python

Database | SQL Server, PostgreSQL, SQLite

Framework | ASP.NET MVC, AngularJS, Django,

Version Control Systems | Git, SVN

Office Tools | MS Word, Excel, PowerPoint, Outlook, Visio

Operating systems | Windows 7, Windows 8 (8.1), Windows 10, Linux

Work Experience

Pink Elephant – Burlington, Ontario | September 2016 - Present

As Front End Web developer I designed and produced user friendly websites for upcoming conferences, made content and UI/UX changes, and created prototypes for up coming projects. I also collaborated in weekly meetings and assisted in creating strategies to meet monthly goals.

Best Buy Canada | August 2015 – June 2016

My duties as sales associate was to aid customers in the computer department and meet monthly sales goals. I provided customers with the most current information and trends to help choose the best computer that suited them.

Education

Graduate from Niagara College Canada
for Computer Programming - 2016
